**Honeywell Web Inspection System**  
**Reference Letter**

We would like to thank Honeywell for the successful implementation of Web Inspection System in **PT SURYA ZIG ZAG**.

Web Inspection System has provided good inspection for our application in PAPER plant and we have started up the plant smoothly and it is running well. Honeywell WIS has met our expectation in looking the correct defects with imaging capability for our application.

We wish to express our sincere appreciation to the entire Honeywell Team (Satoshi Nakamura, Ben Chai, Hannu Moilanen, Denny Setiawan, Heryanto Tanukusuma, Eko Widayat, and Dwi Wiyanto), especially to Dwi as the Leader of Engineer. He has performed satisfactorily and worked side by side with our team after hours to get the plant started and achieving product quality.

Thank you.

Sincerely Yours,

  
**PT. SURYA ZIG ZAG**
