

Global SESP Training Match Option:

Double Your Training Investment with Honeywell's Training Match Funds. Sign up or renew your Solution Enhancement Support Program (SESP) contract including Training Match Funds today!

Honeywell wants to invest along with you to ensure that your employees can leverage the capabilities of your automation systems and software.

Our **SESP Training Match Funds** provide you with a dedicated training fund and allow you to choose the training curriculum that best suits your employee skill level needs.

SESP has been uniquely designed to maximize the results you realize from your investment in automation control and information technology. Simply elect the Training Match option at the beginning of your SESP contract term. You may contribute up to 10 percent of your SESP program price and Honeywell will match the amount you designate, effectively doubling your training investment.

Training Match funds can be applied to **TUITION ONLY** for customers' employees on **STANDARD** Honeywell Process Solutions Automation College courses. These courses are listed on the Automation College website, www.automationcollege.com link.

Honeywell Process Solutions Automation College provides training courses in two categories: Standard and Custom.

- Standard training courses are comprised of a set of standard Contractor training modules assembled in a specific order that is applicable to all Contractor customers.
- Custom training courses are comprised of a set of training modules that may include Contractor standard training modules, modified Contractor standard training modules and/or customer specific training modules applicable for the training requirements of a particular customer's specific processes.

Training Match funds **can** be applied to the published list price tuition for:

1. In-Center regularly scheduled classes
2. Open Enrollment regional classes
3. Self-Study, Computer-Based Training developed by Honeywell Automation College
4. On-Site Standard Course customer training (exclusions apply)

Training Match funds **cannot** be applied to:

1. Third-party developed training courses, resold by Honeywell, or otherwise
2. Development fees and tuition for customized courses (new course development, etc.)
3. Shipping & handling and travel & living for on-site training

Training Match CANNOT be combined with any other discounts – Master Purchasing Agreement (MPA)/Strategic Business Agreement (SBA) or other negotiated contract discounts will not apply.

Your commitment to this fund must occur at the beginning of the Agreement term and may not be added to, modified or cancelled. This option is not subject to the provisions of Article 2, “Cancellation by Customer”, within Schedule Z, “Terms and Conditions” in the Automation and Control Solutions (ACS) Services Agreement.

All Honeywell Automation College Training Agreement - Terms and Conditions apply.

No other training discount may be used in combination with this fund. Any unused funds remaining at the end of the Agreement term are forfeited.

To determine how the SESP program and Training Match Fund will support your specific plant or mill operating strategies, contact your Honeywell Account Manager or Field Service Leader. If you are unsure who your Honeywell contact personnel are, please call Honeywell Automation College at 1-800-822-7673 or 1-602-313-5669.
