**Honeywell - DaVinci Quality Control System**  
**Reference Letter**

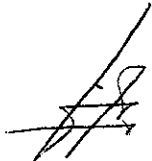

We would like to thank Honeywell for the successful implementation of DaVinci Quality Control System in **PT. FAJAR SURYA WISESA PM#7**.

DaVinci Quality Control System has provided good measurement and control for our application in PAPER plant and we have started up the plant smoothly and it's running well. Honeywell DaVinci QCS has met our expectation in controlling our products to meet our end user demands.

I wish to express my sincere appreciation to the entire Honeywell Team (Satoshi Nakamura, Sofia Subur, Ben Chai, Denny Setiawan, Heryanto Tanukusuma, Johann Resl, Yusni Saiful Bahri and Melky Datuela, Kurnia Agustin), especially to Yusni, Johann and Kurnia. They has performed satisfactorily and worked side by side with our team after hours to get the plant started and achieving product quality.

Thank you.

Yours sincerely,

Sugiharto

Instrument Department Head
