Facilitated by: Mark Peters

Publisher
Hydrocarbon Processing

April 7, 2006

Houston, Texas

7:00 am – 9:00 am

Join a select group of HPI leaders at the *Hydrocarbon Processing Plant Managers' Breakfast Forum* on April 7, 2006, in Houston, Texas from 7:00 am to 9:00 am.

This management discussion will focus on enhancing operator-driven reliability plant compliance issues and operators' use of mobile solutions.

Limited to only 25 participants, this forum will allow Plant Managers, Operations Managers and other decision makers to gather together and discuss current industry issues in an informal setting. The morning will begin with a networking breakfast followed by a panel discussion highlighting recent case studies of ODR programs, wireless automation and compliance.

There is no charge to attend this meeting; however, space is extremely limited, so you are encouraged to respond soon.

Please save me a seat

(Event details will be sent to you once your registration is confirmed)
