

Software Change Notice

Date: March 11, 2008

Subject: Release of Microsoft Updates KB942763 for Experion PKS & TPS System

The redistribution and installation of Microsoft Updates KB942763 has been approved for Honeywell platforms only, specifically Experion & TPS nodes running on Windows XP SP2, Windows 2003 SP1 and SP2.

Purpose of this Patch

The update that this article describes changes the time zone data to accommodate daylight saving time (DST) changes in several countries, as outlined in this article. This update also includes other DST-related changes, time zone-related changes, and settings-related changes.

The update that this article describes is a cumulative update rollup that includes all the changes that were previously released in Microsoft Knowledge Base (KB) articles 928388, 929120, and 933360.

Note: When you apply this update, you may receive the following message:

Update cannot be installed as a newer or same time zone update has already been installed on the system.

This message indicates that you have already applied the correct update or that Windows Updates or Microsoft Update has automatically installed this update. No additional action is required to update the Windows operating system software.

Updates from the previous cumulative Windows time zone update:

The following changes have been made since the previous Windows cumulative time zone update. This update was described in Microsoft Knowledge Base article 933360:

- **Arabic Standard Time:**
Adjusts DST start dates and end dates for the Baghdad time zone for

changes after the prior cumulative time zone update was created (August 2007).

- **Australia:**
Central Australia Standard Time
Australia Eastern Standard Time
Tasmania Standard Time
Adjusts DST start times and end times for these time zones so that they start and end on the same day. This was changed after the prior cumulative time zone update was created (August 2007).
- **Egypt Standard Time:**
Adjusts DST start dates and end dates for the Cairo time zone for changes after the prior cumulative time zone update was created (August 2007).
- **Israel Standard Time:**
Adjusts DST start and end dates for the Jerusalem time zone for changes after the prior cumulative time zone update was created (August 2007).
Note: Updates for the Jerusalem time zone are not included in the Windows Vista package for this update. The Jerusalem time zone updates have been available in Windows Vista since Windows Vista was originally released.
- **South America:**
E. South America Standard Time
Central Brazilian Standard Time
Adjusts DST start dates and end dates for the Brasilia time zone and for the Manaus time zone for changes after the prior cumulative time zone update was created (August 2007).
- **Venezuela Standard Time:**
Adds a new time zone for the Caracas time zone for changes after the prior cumulative time zone update was created (August 2007).
